Pinon Coulee

J. A. Deuson went to Mountainair Saturday.

Mrs. Chas. Hibler visited Mrs. Geo. Fuchs Friday afternoon.

A. D. Tomlinson made a business trip to Mountainair Saturday.

It has been raining for a week, and is still raining today, the 12th.

Max Fain hauled a load of wood Monday off of S. B. Hibdon's "rancho."

Sam Hibdon hauled a 4-horse load of lumber and cement out from Mountainair Saturday for Mr. Taul.

Well this is Tuesday October 14, and the sun shining which certainly looks good to the bean raisers.

Mrs. Tomlinson is suffering with rheumatism this week, but health in general is good in our neighborhood.

Mr. Taul is now hauling the lumber and cement to begin on his new house. Edd Philipp and J. A. Deuson are his carpenters.

John Hopkins has been hauling water from Sam Hibdon's this week. Mr. Hibdon is glad to have a fine well of water so he can accommodate his neighbors.

Those who have not stacked or threshed their beans are getting mighty uneasy about so much rain. Only a few near here have threshed any.

Geo. Fuchs has contracted to furnish the Round Mound School with wood this winter. Adie Tomlinson is helping Mr. Fuchs deliver some of

the wood this week.

We have had a few light frosts but it hasn't even killed the cucumber vines, and all the bean fields are green with young beans which shattered out in harvesting.

Clark Wood wrecked his car somewhat, Friday, when he ran into S. B. Hibdon's wagon. Mr. Hibdon had a four horse load of beans on his wagon, going to Mountainair when Wood ran into it.

Mr. Fields is again mail carrier on our route, and we hope our mail will come out more regularly now, than it has of late. People have been awfully disappointed on account of the mail failing to come out.

Geo. Fuchs has been busy cutting his milo maize this week of which he has an abundance, and as fine as ever grew any where. J. D. Hopkins, Samuel Hibdon and Adie Tomlinson have been assisting Mr. Fuchs cutting this feed.

Mr. Fain was gathering his threshing hands today to begin threshing his beans. We certainly hope he can succeed in getting his beans threshed before another rain as he has been threshing for other people and left his as last. He deserves fair weather now.

Geo. Fuchs says he has found that the running careless weed is of a great use where the pinon birds take to milo maize in the shocks. He pulls the weed and covers over the top of the shock and so has Mr. Pinon bested. Mr. Fuchs may advocate raising weeds along with maize, etc., where birds are bothersome.

News of importance is scarce as hens teeth. So I'll get my old Bonnet and be off to work for this week is busy week:

Tell-a-Phone

The Kansas City farmer whose mules came to their meals when the stockyards whistle blew, hasn't a thing on J. Frank Buckner, a big male and hog feeder, in Callaway county Missouri, who brings his hogs to the feeding trough with the aid of the horn on his automobile.

Buckner says it is more effective than any human "hog holler" he has ever heard in action. At first it proved a little hard to train the hogs to answer the horn, but Buckner solved the problem by driving a number of them to a point where they could see the corn falling into the trough as he tooted the horn. Then they came pell mell and porkers further down the lane noticing the rush for the meal ticket came running also.

A ruralist in Missouri posted his lands, the notices reading as follows: "Notice—Trespasser will be persecuted to the full extent of 2 mean mongrel dogs which ain't never been overly sociable with strangers and 1 dubbel barl shot gun which ain't loaded with no soft pillers dam if I ain't tire of this heltrash on my property."

The wife of a certain doctor had advertised for a girl to do the house work, and was showing an applicant over the house. She had been very liberal in her promises of privileges, and it looked as though the two were about to come to an agreement, when the girl suddenly asked: "Do you do your own stretchin'?" "Do we do our own what?" asked the puzzled mistress. "Stretchin'," repeated the girl solemnly. "Do you put all the food on the table at dinner and stretch for it, or do I have to shuffle it round?"

He (telling joke from the Follies)—"Do you see the point?" She—"If it's what I think it is, I don't and you're no gentleman."—Jack o' Lantern.

**GAME TRAPS
 RIFLES
 CARTRIDGES
 SHELLS**

Trappers have never had a better opportunity than this season. Manufactured furs are scarce, the demand exceptionally heavy and the prices high. High price fur will make more trapping, more trapping will cause a big increase in the sale of game traps, rifles and ammunition, and the increased demand for traps, rifles and cartridges will probably cause a shortage. Better buy now and be sure that you have them when the times comes.
